Clinical Patient Management System (CPMS)

IT Platform for Clinical Consultations between ERN Members

The CPMS aims at supporting ERNs in improving the diagnosis and treatment of rare or low prevalence complex diseases across national borders of Member States in Europe.
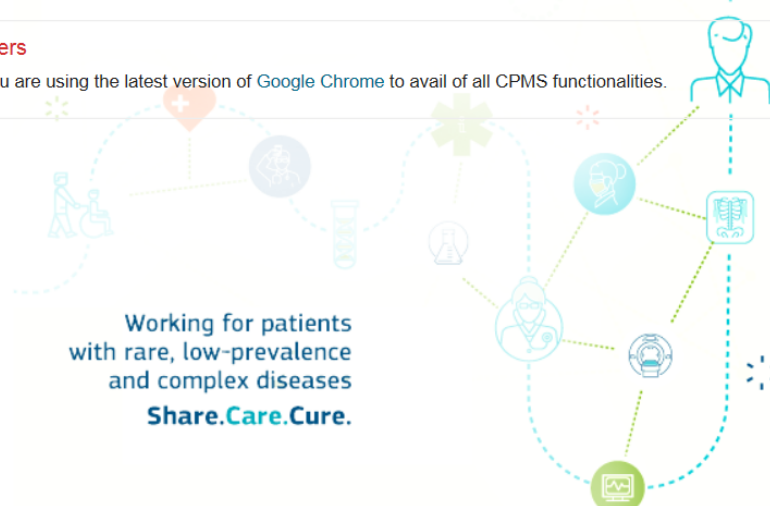

The CPMS is a secure Software as a Service (SaaS) that enables health professionals to enroll patients using comprehensive data models. Health professionals can use the CPMS to collaborate actively and share patient within and across ERNs.

The CPMS is supported by Virtual Communication Tools and DICOM viewers to facilitate the interaction between clinicians. Reporting tools are among the functionality of the system to seamlessly empower users to generate reports of interest for administrative and clinical purposes.

The site may change as we endeavour to incorporate suggestions from our Clinical Advisors, particularly in the area of Graphics and Reporting.

Supported Browsers

Please make sure you are using the latest version of Google Chrome to avail of all CPMS functionalities.

Working for patients with rare, low-prevalence and complex diseases

! Once you have submitted the request it will take about 2-3 days until your request has been approved and your account has been activated.

! For CPMS login you will be asked for 3-factor authentication (e.g. email + password + SMS). This kind of identity management checks if the account is related to a real person and not to a robot.

! If you are using authentication by SMS, please note: In order for the CPMS to 'know' you, you have to enter your mobile phone number in your EU-account; please go back to the login page:
